Ref no:	149011020
From:	Public
Date:	01/10/20
Subject:	Operating systems and fax machines in the Trust

REQUEST

1) Which operating system is currently used for the computers used in your Trust? (ie. Windows 7, etc.)

2) How many fax machines does your trust currently own and use?

RESPONSE

1) **Windows 10 is the primary operating system. Any variations from this are currently being migrated to Windows 10 with an expected completion date of mid-November.**

2) **As of 9 October 2020, there are a total of 28 active fax machines across St Helens & Knowsley Teaching Hospital NHS Trust sites. The Trust is actively working to remove these remaining machines and it is anticipated that this work will be completed by January 2021.**
