From: Commercial
Date: 04/02/21
Subject: Paediatric usage of Buccolam for pre-med/diagnostic use

REQUEST

What number of Buccolam syringes were administered to paediatric patients for the purposes of sedation pre procedures over the last 12 months of data you hold (please provide details of what this date range is).

What number of Buccolam syringes were administered to paediatric patients for the purposes of treating epilepsy over the last 12 months of data you hold (please provide details of what this date range is).

If a specific purpose is not discernible please could I request the number of syringes administered to all paediatric patients. If the number of syringes is not possible but the number of paediatric patients that received Buccolam is, then again this information would also be gratefully received.

RESPONSE

The Trust does not hold details of the diagnosis that a patient is being treated for with Buccolam syringes, and does not hold information on the number of syringes administered. However we can confirm that 128 were supplied to paediatrics over the last 12 months.
