Subject: Meditech

REQUEST

I am a second year nursing student at Edge hill University. I am doing my assessment on service improvements.
In my assessment I am talking about MEDITECH. I am emailing to ask if this has been introduced into Whiston, how do staff find this and are you mostly paperless. Any pros and cons to it?
Also how is your resuscitation equipment checked?

Any information regarding this would be helpful. Understand confidentiality will play a role in this

RESPONSE

The Trust does not use Meditech.

The resuscitation equipment is serviced in accordance with the manufacturer guidelines.
