Subject: Early warning systems

REQUEST

I am a PhD student and Clinical Research Fellow in Nottingham looking at workload impact of early warning systems. I have 2 questions-

1. Which electronic observations system do you use? (if any)
2. Are there automatic escalations at set scores to doctors? Y/N
If yes so what is the NEWS2 cut off for
 - i) automatic escalation to the registrar?
 - ii) other team member junior doctor/matron/CCOT?

RESPONSE

1. System C's Careflow Vitals electronic observations.
2. No
