Subject: services to pregnant women

REQUEST & RESPONSE

I am researching how maternal vaccinations are delivered across the NHS. Could you please answer the following questions for me:

1. Does your trust provide the following services to pregnant women:

- Tdap (Pertussis)/whooping cough vaccination
- Influenza vaccination

If you do not provide either service, please specify where pregnant women needing these services are treated?

Yes

2. Of the total numbers of Healthcare Professionals that recommend/raise conversations regarding the Tdap (pertussis)/whooping cough vaccination to pregnant women across your Trust, what is the estimated % of each of the following types of HCPs:

- Midwife
- Nurse
- Doctor

Unable to gather data on % between midwives and doctors who have had conversations regarding Tdap (pertussis)/whooping cough vaccination as we do not record this information.

3. Of the total numbers of Healthcare Professionals that deliver the Tdap (pertussis)/whooping cough vaccination to pregnant women across your Trust, what is the estimated % of each of the following types of HCPs:

- Midwife 100% in our trust
- Nurse 0%
- Doctor 0%

4. Of the total numbers of Healthcare Professionals that recommend/raise conversations regarding the influenza vaccination to pregnant women across your Trust, what is the estimated % of each of the following types of HCPs:

- Midwife
- Nurse
- Doctor

Unable to gather data on % between midwives and doctors who have had conversations regarding Tdap (pertussis)/whooping cough vaccination as we do not record this information.

5. Of the total numbers of Healthcare Professionals that deliver the influenza vaccination to pregnant women across your Trust, what is the estimated % of each of the following types of HCPs:

- Midwife 100%
- Nurse 0%
- Doctor 0%
