

Ref. No: 496  
From: Public  
Date: 22/03/23  
Subject: Diagnostic Hysteroscopy

## REQUEST & RESPONSE

### 1. How many patients are currently waiting for a Diagnostic Hysteroscopy?

Appointment Type	No. Waiting
OP 1st Appointment	159
OP FU Appointment	509
IP Appointment	2
<b>Total</b>	<b>670</b>

### 2. What is the current wait time for a diagnostic hysteroscopy, under GA and in outpatients?

The average weeks currently waiting on an OP first appointment is 2.2 weeks, however we are unable to state whether the patient is a GA patient without a clinical review of the patients.

The average weeks currently waiting on an OP follow up appointment is 47.5 weeks, however we are unable to state whether the patient is a GA patient without a clinical review of the patients.

### 3. How many Hysteroscopies were performed as a whole from March 2022- March 23?

The figure for the number of hysteroscopy procedures carried out includes those carried out as in both an admitted setting and an outpatient setting.

<b>1<sup>st</sup> March 2022 to 31<sup>st</sup> March 2023</b>	<b>960</b>
--	------------

### 4. How many patients are waiting for an Endometrial ablation under GA and in outpatients?

Please note that we are unable to provide data for questions four and five, as the data is not recorded in a way to pull through data by procedure for outpatients (we only have this for some specific diagnostic procedures).

**5. What is the current wait time for endometrial ablation, under GA and in outpatients?**

Please see answer to question four.

**6. How many endometrial ablations were performed from March 2022- March 2023?**

35 endometrial ablation procedures were performed between 01/03/2022 and 31/03/2023.

**7. How many hysterectomies were performed from March 2022- March 2023?**

213 hysterectomies were performed between 01/03/2022 and 31/03/2023.
