## REQUEST

**I am looking for the Trusts cleaning / disinfection manual, as I would like to see the Trusts current guidelines?**

## RESPONSE

At St Helens and Whiston Hospitals, the non-clinical cleaning service is provided as part of a Private Finance Initiative (PFI) with Medirest providing the cleaning service. They produce their own cleaning manuals. These manuals are seen as commercially sensitive, and the Trust is unable to share this information.

The Trusts Infection Control Manual is extensive and provides guidance on a number of aspects which also includes cleaning:
