Section 40: Personal Information

Please note that the Trust is unable to provide precise figures when they refer to individuals in volumes of 5 or less, due to the risk that individuals will be identifiable, and given the requirement to protect the identity of individuals under the General Data Protection Regulations & Data Protection Act 2018. In such circumstances, Section 40(2) and Section 40(3) of the Freedom of Information Act apply.

In this case, it is the Trust's view that disclosure would breach the first data protection principle, which states that personal data should be processed "lawfully, fairly and in a transparent manner". It is the lawful aspect of this principle which, in the Trust's view, would be breached by disclosure.
