

Ref. No: FPO0022
Date: 09/07/2023
Subject: Electronic Patient Record software

REQUEST

This request is for STHK ONLY

Specific to your Ophthalmology Department, what Electronic Patient Record software do you use in the Retinal Clinic for diabetes?

RESPONSE

For these specialist patients we use:

Careflow – appointments co-ordination and non-ophthalmic test.

EDMS – PDF viewer of patient records

Medisight – Monitoring and treatment recording of diabetic retinal patients.
