## Dressings

Please keep the dressing clean, **dry** and un-disturbed until your next hand clinic appointment.

If necessary, please take your painkillers at least 45 minutes before your clinic appointment to help with pain relief during the change of dressing.

## Exercises

- Bend and straighten your elbow and move your arm forwards and to the side 3 times every hour to prevent stiffness.
- Bend and straighten your fingers, thumb and wrist 3 times every hour within the limits of your dressing. **Do not force the movement with the other hand.**
- Use your affected hand(s) to do light activities for example getting dressed, reading, picking up lightweight objects; **do not** use your hand for any heavy or dirty activities for example gardening, cleaning floors and manual work.

**Do not drive. Seek advice about when to commence driving at your clinic appointment.**

It is **very important** that you perform any exercises given to you by a therapist **as you were shown**.

To aid your comfort, try keeping your hand(s) or arm(s) raised on a pillow when sitting or lying down and elevated above your heart level when walking around. This will help:

- Blood flow to your hands and arms
- Prevent swelling
- Help with pain relief.

## Problems

Please contact the ward where you were admitted should you have any of the following problems:

- Very swollen hand(s)
- Pain that is not relieved by taking your pain killers
- Pins and needles or numbness in your hand(s)
- Bleeding that will not stop after applying gentle pressure
- Any redness on your skin which feels hot to the touch and goes past the end of the dressing
- You feel generally unwell
- Have a green/brown smelly discharge coming through the dressing.

## Hand Clinic

You will be given an appointment to attend Hand Clinic

**It is very important that you keep this appointment**

The telephone number for appointments is: **0151 430 1234**

Please contact the clinic straight away if you will not be able to keep your appointment.

If an ambulance has been arranged for you to return to the dressing clinic, **please be ready 2 hours before** your appointment time.

This is because ambulances sometimes collect patients early and cannot wait for you to get ready.

**Sanderson Suite: 01744 646 089/646 098**
