# COVID-19 Home Swabbing Instruction Leaflet

## What is the COVID-19 Home Swabbing Test?

The COVID-19 Home Swabbing Test has been requested by your hospital doctor to ensure you are COVID negative before commencing or re-commencing your treatment.

## How do I collect my sample?

Collecting your sample is very simple and hygienic. Please follow the instructions included with this information. Please read **all** the information contained in the leaflet **before** attempting the test.

## What do I do with my collected sample?

Please collect your sample between **Monday to Friday only**.

Once you have collected your sample please return it **on the same day** between **8am to 6pm** to Whiston Hospital drop-off box:

**Whiston Hospital:** drop-box is located at the shuttle bus stop.

When you have posted your sample, please phone **0151 430 1837** and inform the staff you have dropped off your COVID home swab.

## What happens after I have done my test?

The clinical team in charge of your care will contact you to discuss your results and any treatment plans.
