REQUEST

We are looking to establish the following information

Year of 2019

Urology/GI

- Number of ERPC suites
- Number of annual colonoscopy procedures
- Number of annual Gastroscopy procedures

We appreciate that these maybe rough average numbers and Pre Covid-19 due to reduced clinic capacity as a result of dealing with the current epidemic. The date range is for the year of 2019... if it's easier to provide us with an avg per week or month that's fine as we can multiply the numbers.

RESPONSE

Please see below for figures for the whole of 2019:
