I've
had my
flu jab

TOGETHER
WE HAVE COME
THIS FAR
Don't let Flu
beat us now!

TOGETHER WE HAVE COME THIS FAR

Don't let Flu beat us now!

Flu hits us hard every year.

And this year it will be harder than ever.

To fight Covid-19 and Flu at the same time, we MUST do all we can to protect the thousands of vulnerable patients needing our care throughout the winter.

All STHK staff including Medirest and Vinci staff should get protected as early as possible and have their flu jab.

Now is the time for us to get ready.

How to Get Your Flu Jab

There are 3 ways you can get your flu jab.

1. Drop-in to one of our Flu clinics

Flu vaccination clinics will be taking place across Whiston, St Helens, Newton, Alexandra Park*, and in the Community.

- Check the Flu clinic timetable on the staff intranet or via flu.sthk.nhs.uk to find your closest vaccination session
- Turn up
- Walk-in - No appointment needed.

*Please note, clinics at Alexandra Park are for staff that are primarily based there.

2. Contact your Peer Vaccinator

- Find your nearest Peer Vaccinator (colleagues who have been trained to vaccinate you!) we have 99 across the Trust. Find our full list of peer vaccinators on the staff intranet or via flu.sthk.nhs.uk
- Email them to arrange a convenient time for your flu jab. (Please DO NOT call the ward)
- Agree a time
- Turn up
- Get your Flu jab (did we say it only take 3 seconds?)

3. Book an appointment to attend a clinic out of the hospital setting

- This option is available for any staff who need to be vaccinated out of the hospital setting including but not limited to:

- staff who are currently working from home
- staff who are shielding
- staff who are high risk
- BAME staff

- To book a flu vaccination appointment please telephone **0151 290 4921/4925**

- Appointment only clinics will be held in a Covid secure area of Nightingale House (on the Whiston Hospital site)

If you need further information or have any questions about your flu vaccine, please call the Health, Work and Wellbeing Clinical Coordinator, tel: 07885 694539.

"It is vital that we all have the flu vaccination at the earliest opportunity in order to protect ourselves, each other and our patients. The combination of Covid-19 and flu poses a challenge the like of which we have never seen before and it is crucial that as we enter the winter months our staff are protected and that their safety remains our priority."
Ann Marr OBE, Chief Executive

"This year we've worked so hard to care for patients in the face of Covid. As winter approaches, fighting Covid and Flu together will be an even bigger challenge. Whilst we may not yet have a Covid vaccine we do have a vaccine to protect you against Flu. And by protecting yourself, you'll also be protecting your patients and family as well. We all need to have our flu vaccine for the benefit of our entire community."
Rowan Pritchard-Jones, Medical Director

"Protecting our staff and patients will always be the Trust's top priority, and protecting you against flu, especially this year, is crucial. The vaccine will protect you, your colleagues and our patients. Your dedication to patient care over the past 6 months has been inspiring and we need to all pull together over the next 6 months and continue to protect each other."

Sue Redfern, Director of Nursing, Midwifery and Governance

The 'Not the Start of the Year Conference' goes virtual!

As you know, April 2020 was a month of unprecedented activity, the kind we have never seen before and hopefully will never have to experience again.

While the entire Trust pulled together to deal with the local consequences of the global pandemic, many of the events that would normally take place to mark the start of a new financial year had to be cancelled.

Yet before the pandemic hit, the year 2019/2020 was already a year like no other...

- Best in the country (Patient Led Assessments of the Care Environment)
- Best Place to Work (NHS Staff Survey)
- Outstanding (Care Quality Commission)
- Trust of the Year (HSJ Awards)

And because of those amazing achievements, we couldn't miss the opportunity to review the year, so the newly named 'Not the Start of the Year Conference' went virtual!

Held via Zoom, over 100 senior managers at the Trust tuned in to watch Chief Executive, Ann Marr, deliver her presentation. Ann began by welcoming new colleagues and services to the Trust before reviewing quality and financial performance activity. She highlighted the Trust's achievements and of course detailed the considerable impact the COVID-19 pandemic had had on our staff, patients and the local community. Ann also looked ahead to how the Trust plans to recover from the pandemic, whilst managing winter activity and discussed future challenges. She thanked all staff for their ongoing support and praised the commitment of staff to continue to provide 5 star patient care in such difficult circumstances.

Trust Objectives 2020 - 2021

Delivering 5 Star Patient Care

Care

- Deliver 5 star patient care
- Improve the patient experience
- Reduce the number of falls
- Reduce the number of pressure ulcers
- Reduce the number of hospital admissions

Safety

- Reduce the number of falls
- Reduce the number of pressure ulcers
- Reduce the number of hospital admissions

Operational performance

- Reduce the number of falls
- Reduce the number of pressure ulcers
- Reduce the number of hospital admissions

Financial performance, efficiency and productivity

- Reduce the number of falls
- Reduce the number of pressure ulcers
- Reduce the number of hospital admissions

Strategic plans

- Reduce the number of falls
- Reduce the number of pressure ulcers
- Reduce the number of hospital admissions

The conference also marked the launch of the annual Trust Objectives.

Each year, the Trust sets out the key targets to achieve its ultimate goal, "5-star patient care".

This year's objectives continue to focus on standards that will enrich the patient experience whilst delivering care that is consistently high quality, safe and effective, and meeting national and local performance targets.

This year's Trust Objectives 2020 - 2021 will be distributed to all wards and departments for display on notice boards. They can also be found on the staff intranet site.

2020 NHS Staff Survey – Working through the pandemic

This year has been a year like no other – tell us what it has been like for you!

If you are selected to complete the 2020 NHS Staff Survey during October and November, it's important that we hear from you. You'll be one of 1250 staff who'll have the opportunity to feedback on their experience of working at STHK. We've also added questions to capture the Covid experience.

Acting on your feedback from last year's survey, the Trust has focused on improving the wellbeing of staff, particularly during the time of Covid-19. We've offered one-to-one and group mindfulness sessions, as well as debrief sessions. And we're improving access to non-mandatory training opportunities, including apprenticeships, as well as ongoing work around the quality of appraisals too.

Thanks to you, last year saw us recording the best national score for 5 years in a row for quality of care, and for the 4th consecutive year for staff engagement. Best national scores were also recorded for staff morale, safety culture and bullying & harassment.

This year staff can choose to complete the paper questionnaire and return it to Quality Health using the pre-paid envelope, or complete the on-line version instead, following the instructions provided in the invitation letter.

Please be assured that responses to the survey are strictly confidential and will be handled by Quality Health on behalf of the Trust. No-one from the Trust will be able to see your completed survey or be able to identify your individual responses.

This is your big opportunity to tell us what you like about working at the Trust, and what isn't going quite so well.

For more information, please visit <https://www.nhsstaffsurveys.com> or contact Helen James, Engagement & OD Facilitator: helen.james3@sthk.nhs.uk

SPOTLIGHT ON

COMMUNITY SERVICES

Transferring to a new Trust in the midst of a pandemic should have presented a huge challenge, but our new community services staff really showed us that they're made of strong stuff when they transferred to us in April.

Joining their community colleagues that had previously joined the Trust (Newton Intermediate Care Unit, St Helens UTC and the IV Therapy Team), each team continued to provide an exceptional level of service, with little disruption to patients in the community.

We want to wish our new community teams a very warm welcome to STHK. And here's your chance to get to know them a little better...

Community Matrons

Who we are

We're a team of highly experienced and skilled nurses who work closely with patients with complex or long-term health conditions, to proactively manage this high risk patient group.

What we do

We support and enable patients to self-manage their own health. This helps to prevent unnecessary hospital admission and can help earlier discharge from hospital.

Where we are

The community matrons are based in multiple locations across St Helens.

CENTRAL TEAM

Fingerpost Park Health Centre

NORTH TEAM

Garswood Primary Care Centre

SOUTH TEAM

Four Acre Health Centre

NEWTON & HAYDOCK

Newton Hospital

Community Nursing

Who we are

Community nurses provide nursing care and treatment to patients in their own homes (including residential homes) 24 hours a day, 365 days a year.

What we do

We treat patients who are housebound or require treatments where a home visit is necessary. Examples of the care we provide include:

- Holistic assessment to look at all areas of physical and mental wellbeing
- Wound care
- End of life care
- Continence care
- Administration of injections / medications
- Ear care

Where we are

The community nurses are also based in multiple locations across St Helens.

CENTRAL TEAM

Fingerpost Park Health Centre

NORTH TEAM

Garswood Primary Care Centre

SOUTH TEAM

Four Acre Health Centre

NEWTON & HAYDOCK

Newton Hospital

COPD and Pulmonary Rehab Team

Who we are

The COPD and Pulmonary Rehab Team is made up of COPD Nurse Specialists

What we do

We support hospital discharge and provide care for patients diagnosed with chronic obstructive pulmonary disease (COPD), by improving quality of life, enhancing self-management, and educating patients to manage their conditions in the community.

Where we are Lowe House Health Centre

Adult and Paediatric Continence Services

Who we are

The Adult Continence Service is made up of a small team of specialist nurses with extensive experience of continence promotion. The team come from a variety of backgrounds and skills. The Children's Continence Service is a community based team of experienced specialist nurses and nursery nurses.

What we do

The adult team promote continence and support adults with bladder and/or bowel issues. They help with:

- improving the patient's quality of life through offering a full holistic assessment to promote continence
- identifying causes for the presenting problem
- referring to other health care professionals for further investigation and treatment as required
- providing specialist support and advice regarding bladder and/or bowel dysfunction
- treating people for as long as the intervention is needed

The children's team provide support, advice and treatment to children and young people with bowel and/or bladder problems including those with neuropathic bladder and bowels.

Where we are Fingerpost Park Health Centre

Cardiac Rehab Team and Heart Failure Team

Who we are

The cardiac rehab team and heart failure team are made up of specialist nurses, specialist physiotherapists, an exercise instructor, and administration support. They assess patients diagnosed with heart conditions and enable them to return to a full and active life as possible through education, medication reviews, and cardiac rehabilitation.

What we do

The Community Cardiac Rehabilitation Team provides ongoing support for patients who have left hospital after having myocardial infarction (MI). They provide access to a cardiac rehabilitation programme which focusses on educating the patient about their condition and offering health-education and advice on risk factors. The Heart Failure Service provides care for patients diagnosed with heart failure. Discussing diagnosis, treatment and lifestyle needs, the team ensures the patient is on the correct medication and appropriate follow up and investigations are arranged, with the aim of preventing unnecessary admissions and improving quality of life for the patients.

Where we are

You can find both teams at: Fingerpost Park Health Centre

Community Gynaecology

Who we are

The service is provided by a team of local GPs who have enhanced knowledge and skills.

What we do

We provide community based care for people experiencing a range of gynaecological problems.

Where we are Newton Community Hospital

Employee of the Month

December 2019

Anna Ebbrell

Ward Manager, Ward 3C

Orthopaedics

Nominated by: Lyn Swift, Matron

Anna joined the Trust in 2009, completing her nursing training with us, and has been nominated for her dynamic leadership style, compassionate approach to care, and 'can-do' attitude.

In her nomination, Lyn said: "Anna is a pleasure to work alongside and is eager to achieve the best outcomes she possibly can, embracing change and responding to any challenges the role brings. Anna and the ward team have successfully developed the 'Home for Lunch' and 'Pull' models into their daily working routine. Anna promotes a responsive approach to the patient journey while ensuring the right patient is in the right bed early in the day."

Receiving her award, Anna said: "It was a lovely surprise to get the phone call, I was delighted. Thank you for my nomination, winning this award is a reflection of me and my hard working team."

January 2020

Sumudu Bujawansa

Consultant in Diabetes and Endocrinology

Nominated by: Ash Bassi, Divisional Medical Director, Medical Care Group

Sumudu started working at the Trust in 2013, and has been Clinical Director for Diabetes & Endocrinology since 2018. His nomination highlights his passion and dedication to improving the quality of health of his patients and community.

In his nomination, Ash said: "Sumudu has worked tirelessly during the winter period and always been our 'go to' person who never lets us down. Sumudu, your input on the winter planning strategy has been vital and all the team recognise your ability to think outside the box. The Medical Care Group is lucky to have you as part of our team."

On receiving his award, Sumudu said: "It is indeed an honour to be recognised as the Employee of the Month. It is really great to know that your contribution is so highly valued and appreciated by the Trust and your colleagues. I am privileged to work within two really fantastic teams, the Diabetes & Endocrinology Team and the Acute Medicine Team. I would like to think of this award as recognition of all their hard work."

February 2020

Eric Phipps

Assistant Director of Service Delivery

Nominated by: Christine Cowell, Deputy Director of Informatics

Eric has been at the Trust since April 2018, and has been recognised for his innovative approach to improving IT systems and team development within the Health Informatics Service.

In his nomination, Christine said, "The solutions he has put in place have resulted in the Trust being the first in the country to fully deploy Cyber Security initiatives to ensure data and systems are secure. His role can, at times, be very pressured, but during these situations he remains calm, respectful, and listens to advice from his team to implement resolutions quickly and safely so the impact of IT issues on clinical services is minimised. The enjoyment for his role is obvious and infectious to all of those around him, promoting enthusiasm and 'going the extra mile' not just from him but from the whole team."

Receiving the award, Eric said "I was absolutely blown away to receive the Employee of the Month Award and it is a great moment in my career."

March 2020

Lauren Hanson

Dementia and Delirium Nurse Specialist

Nominated by: Marie Honey, Nurse Consultant, Older People's Services

Lauren has worked at the Trust since 2011. She was nominated for her commitment to delivering award-winning dementia care.

In her nomination, Marie said "Lauren works tirelessly supporting patients and carers of people living with dementia. She has been instrumental in providing high quality dementia training to staff right across the Trust, with staff regularly feeding back that it is the best training they have had, being not only educational but motivational and inspiring. Lauren is held in extremely high esteem by her colleagues, embodying the Trust's values and delivering 5 star patient care as a minimum."

On receiving the award, Lauren said, "I am honoured to have received Employee of the Month. I would like to take this opportunity to recognise the hard work of all the staff at STHK who consistently aim to deliver excellence in dementia and delirium care, a big THANK YOU to you all."

If you would like to nominate a member of staff for Employee of the Month, you can download a nomination form from the Staff Matters section on the intranet, call Jayne Byrne, Executive PA, on ext: 1291 or email: employeeofthemonth@sthk.nhs.uk

April 2020 - June 2020

It was an impossible task to choose an Employee of the Month during the height of the pandemic. Chief Executive Ann Marr, along with members of the Trust Board wrote to all staff to thank them for their tireless efforts during this time...

Dear colleagues,

Over the past few months we have faced the greatest challenge the NHS has ever seen. It has tested our strength of mind and drawn on every reserve, but we have faced it as a team, pulled together and supported each other through this time.

That is why, when considering who to choose for the Employee of the Month awards between April and June, it has been impossible for the Trust Board to single out any one individual.

There have been so many examples of staff going to great lengths to provide the highest standards of care to our patients. Alongside your compassion and kindness, it has been a true test of your exceptional skills and expertise and right throughout the Trust, we have seen the type of courage and determination befitting of the very best the NHS has to offer.

This has been the biggest and best team effort, and that is why we have decided to recognise the vital contribution of each and every person on our team.

Your response to this pandemic has been nothing short of inspiring and I want to personally thank you for all you have done. I am immensely proud of you all.

Best wishes

Ann Marr OBE, Chief Executive

NHS

Time and time again, the amazing STHK team spirit has proven to be second to none. It is at times like this that we truly recognise how fortunate we are to have such a committed workforce. You have been selfless in your efforts to care for those affected by this horrendous virus and I know that our patients and their families join me in offering our most sincere gratitude.

Richard Fraser, Chairman

It cannot be underestimated the courage it has taken to be the strong ones, the ones the entire country has relied on to make it through this pandemic. Your dedication to our patients, coupled with the unmistakable warmth and support you have shown to them and each other is priceless. You truly are the best of the best.

Rowan Pritchard Jones, Medical Director

We are more than just colleagues at STHK, we are a family, and we have faced the toughest of times together, supporting one another every step of the way.

Every piece in the jigsaw is essential and we are truly appreciative of each and every one of you. I send a heartfelt thank you for everything that you do.

Sue Redfern, Director of Nursing, Midwifery and Governance

July 2020

Anita Gillen

Voluntary Services Manager

Nominated by: Alison Burns, Resourcing Manager, Recruitment, Retention & Volunteers

Anita has been at the Trust since October 2016, and was nominated for her dedication to and leadership of the Voluntary Services team which culminated in them being awarded the highly prestigious Queen's Award for Voluntary Service, as well as the High Sheriff Award. Her nomination, Alison said: "Anita was instrumental in the Trust recently being awarded £25,000 to develop and implement the new role of 'Response Volunteer' to support the timely discharge of patients and the 'Home for Lunch' campaign.

Through Anita's intervention and persistence, all our volunteer hours are now recorded on eRoster. This initiative enables a demand-led approach to the deployment of volunteers and ensures optimal use of our volunteer hours.

Anita gives her absolute all to the Trust Volunteers Service and it continues to grow and develop under her passionate and positive leadership."

On accepting the award, Anita said, "I was overwhelmed when I was told that I had been chosen for Employee of the Month for July. It is an amazing feeling to be nominated and recognised for my work in growing and supporting our outstanding volunteer workforce."

Simmo Says...

Well, October has arrived and thanks to our amazing supporters we are still forging ahead, raising funds and thinking of new ways to brighten the lives of our NHS heroes and patients.

We know this winter is going to be tough and it's going to be super important that we do all we can to support everyone in our hospitals and community.

Despite having to postpone all our events, we've still managed to raise lots of funds and smiles this summer. One of the highlights has been our online Bingo Charity nights on Facebook Live during July. To date, we've raised a fantastic £535 and had a whole lot of fun with cash prizes and a free raffle.

The Bingo night will be back in October when Julie Lynan and Jules' Pink Army will be marching in as our special guest bingo callers. So, keep your eyes down on the WS Hospitals Charity Facebook page to find out how you can get involved!

Until next time – stay safe – and thank you all for everything you have done to support our amazing hospitals!

I have been so lucky to be introduced to the incredible Palletland Twins, as their story is simply amazing! In 2004, twins Ian & Thomas Slater (30) were both sadly diagnosed with different forms of cancer within months of each other, Thomas was diagnosed with a rare bone tumour in his leg, and Ian was treated successfully at Whiston Hospital for Acute Lymphoblastic Leukaemia.

Three Peaks Challenge

Now 15 years later, the pair are making the most of their 31st birthday celebrations by taking on a (triple) mountain of a challenge. Climbing the highest mountains in Scotland, England, and Wales within 24 hours, the brothers hope to raise £5,000 to give back to the hospitals that took care of them.

We wish you both, and your team, the very best of luck as you take on the National Three Peaks challenge! Thank you so much guys!

If you want to sponsor the twins' efforts, use the following link: <https://www.gofundme.com/f/cea3sn-palletland-3-peak-challenge>

WHISTON and ST HELENS HOSPITALS' CHARITY

(photograph taken before the Covid-19 pandemic)

Anna Taft, Chelsea Beattie, and Simon and Ronnie Carter donated £520 for wards 4D and 4E in memory of their "Uncle Bobby" Beattie. They wanted to tell staff how very grateful they were for the support that not only Bobby received, but themselves as a family during such a difficult time.

Thank you so much to Joe, Clair, and Helen who asked family and friends to donate to our Charity after their beloved wife and mum Sue Bradley sadly passed away. Sue was treated at the Lilac Centre and Burney Breast Unit – and it was testament to what a wonderful person she was as they raised £600 through their JustGiving page.

Thank you all – we are so grateful!

Thank you so much to Linda Mitchell, from 'Knitting for Good' in Netherton, who donated knitted blankets, coats, hats and mittens to SCBU – we're so grateful to you and your fellow knitters!

(photograph taken before the Covid-19 pandemic)

Our lovely Paula Hesketh, who is based at St Helens Hospital, and her brother Alan Hughes, paid us a visit to donate knitted hats to our Maternity Department. They were kindly made by his sister-in-law Hilda Ward, who sent them all the way from Glasgow! Alan's wife Lilian, sadly passed away in November 2019, and not only did they pay a visit to Maternity but also to the Lilac Centre where they presented staff with £130 from donations received at Lilian's funeral. As if that wasn't enough – they also came armed with presents to be used as raffle prizes for future events at the Lilac Centre and received a warm welcome as Paula is so well known within the hospital!!

(photographs taken before the Covid-19 pandemic)

Thank you so much to Carole Walpole, Stella Johnson, and Mary Rush from Rainhill Town Women's Guild, who raised £670 from coffee mornings for our Critical Care Unit after one of their member's daughters sadly passed away with sepsis.

(photograph taken before the Covid-19 pandemic)

Bereavement midwife, Julie Sanderson, and I met up with Taheera and Alex when they made a generous donation to our Maternity Unit. They also kindly bought us "Heart in the Hand" key rings for people who have suffered losses during their pregnancy – thank you both so much!

APPEAL....

Please remember, if you are looking for a challenge or a charity to support, we are your local hospitals and we need you.

You can call me on 0151 478 7568 or email: claire.simmo@sthk.nhs.uk I'm always here to support with advice and suggestions on the best way to go about your fundraiser.

[f /WSHospCharity](https://www.facebook.com/WSHospCharity) [@WSHospCharity](https://www.instagram.com/WSHospCharity) [@WSHospCharity](https://www.twitter.com/WSHospCharity)

Because you're amazing!

We regularly receive feedback about how fantastic the care is at our hospitals. Here are just some of the messages from the last few months.

★★★★★ Gardening & Outdoor Spaces

I've spent many an hour in these gardens when I've been in Whiston and they are so beautiful and relaxing

★★★★★ Endoscopy

I just wanted to say how brilliant the nurses were at my endoscopy outpatient appointment yesterday, and how comfortable they made me feel.

With everything going on I was really worried about going in to have the procedure done but the nurse who talked to me before hand and arranged the sedation was an absolute star, she made me feel so comfortable and the nurses that did the procedure, again, were amazing.

I could not be happier with how things went and how well I was treated, they're all absolute super stars.

May I send a big thank you to the Paediatric A+E department, all the staff who came into contact with my Son, and a special shout out to Staff Nurse Louise Smith who did a fantastic job of reassuring and alleviating my Sons stress. Thank you x

Babs Rawsthorne Best team ever from cleaners to consultants they all go above and beyond to keep us safe stay safe and thank you team aed 🧡🙏🌈

Patricia Devine Thank you not just throughout this pandemic but for everything you have done to save my life and countless others well done all

Irene Williams Great team look after me wonderfully when I had my surgery

Nichola Rimmer You are all fantastic I have so much respect to you all it must of been emotionally draining well done all x

Mandy Graney You have our deepest respect for the sacrifices you made and the excellent work you did. Thank you all.

Anne-Marie Morgan You are all Stars ❤️

Hollie Louise I had a csection on 4th June and I can't thank Helen on FMAU enough for keeping me calm having my pre-op bloods and a massive thank you to Dr King and his amazing team for the best anaesthetic care during the operation 🙌🙌🙌 xx

Celia Humphreys Brilliant well done all of you ... and to the staff that were moved from their area to help out during the pandemic a massive well done to you too 🙌🙌

Shulammite Anaetoo Its takes courage to put ones fears aside, well-done brave heroes

Michelle Hodgkinson Fantastic staff saved my mum a few times. Can't thank you enough 🙌
